LANDO®

# NUOVA FAL

Con la collezione Nuova Falegnameria Lando mette a fuoco linguaggi e segni della tradizione e la reinterpreta in chiave attuale, inedita e contemporanea. La storia si reinventa e ritrova un percorso nuovo ed inatteso. Il savoir-faire dell'Azienda unito alla sua passione per il legno massello lavorano sulle forme di sempre che sono ridefinite con una sensibilità tutta nuova. Le superfici prendono un aspetto opaco e gessoso con sfumature bianco latte e grigio piombo. Il progetto crea atmosfere in bilico tra realtà e fantasia, tra il chiarore di una gipoteca e la penombra di un angolo di palcoscenico. Appaiono immagini che evocano scenografie da sogno, proposte con grande forza decorativa e pensate per l'architettura di oggi. Nasce uno stile contemporaneo disegnato utilizzando le forme dell'arredo classico. Le forme e le proporzioni sono quelle tradizionali: grandi tavoli, vetrine, consolle, sedie e credenze dalle forme morbide. I tessuti ed i trattamenti delle superfici sono invece rinnovati ed aggiornati. Nuova Falegnameria è una proposta arredativa contemporanea con un occhio al passato.

# EGNAMERIA

With the Nuova Falegnameria Collection the Lando Company has focused on traditional themes and forms reinterpreting them in an up-to-date, new and contemporary way. Historic form is reinvented and once again finds a new and unexpected direction. The Company's savoir-faire, together with its passion for solid wood, develops classical and tested forms, which are redefined with a totally new sensitivity. The surfaces take on an opaque and 'chalky' appearance combined with milk-white and leaden-grey nuances. The project creates atmospheres that find themselves between reality and fantasy, midway between the soft light of a gallery of plaster casts and the half-light of a theater stage. They appear as images that evoke wonderful set-designs which are projected with considerable decorative force, created for today's architecture. The result is a contemporary design using the forms of classical furnishings. The forms and proportions are traditional: large tables, glass-fronted cupboards, consoles, chairs and dressers all reflect their classic forms. The fabrics and the ways of treating the surfaces have been renewed and updated. Nuova Falegnameria is a contemporary furnishing projection but with attentions that keeps the past in mind.
