## outdoor concept

---

L'esterno e la natura: un caleidoscopio di colori che generano un dialogo interrotto tra design e personalità. Le mani vogliono accarezzare, gli occhi vedere e cogliere quei riferimenti del mondo outdoor in cui ci riconosciamo. Ma non solo.

La collezione outdoor seduce senza invadere, in un continuo equilibrismo tra creatività colore e la ricerca della rarità. La suggestione di un intreccio, la texture di una tela, lo spessore di un legno, l'incisione di una pietra si fondono in una luce calante, o nel mare di mezzogiorno. La vasta gamma di offerta si colloca in una direzione contemporanea ricca di funzionalità silenziose, ma attente alle novità e a tutto ciò che si definisce design come laboratorio creativo.

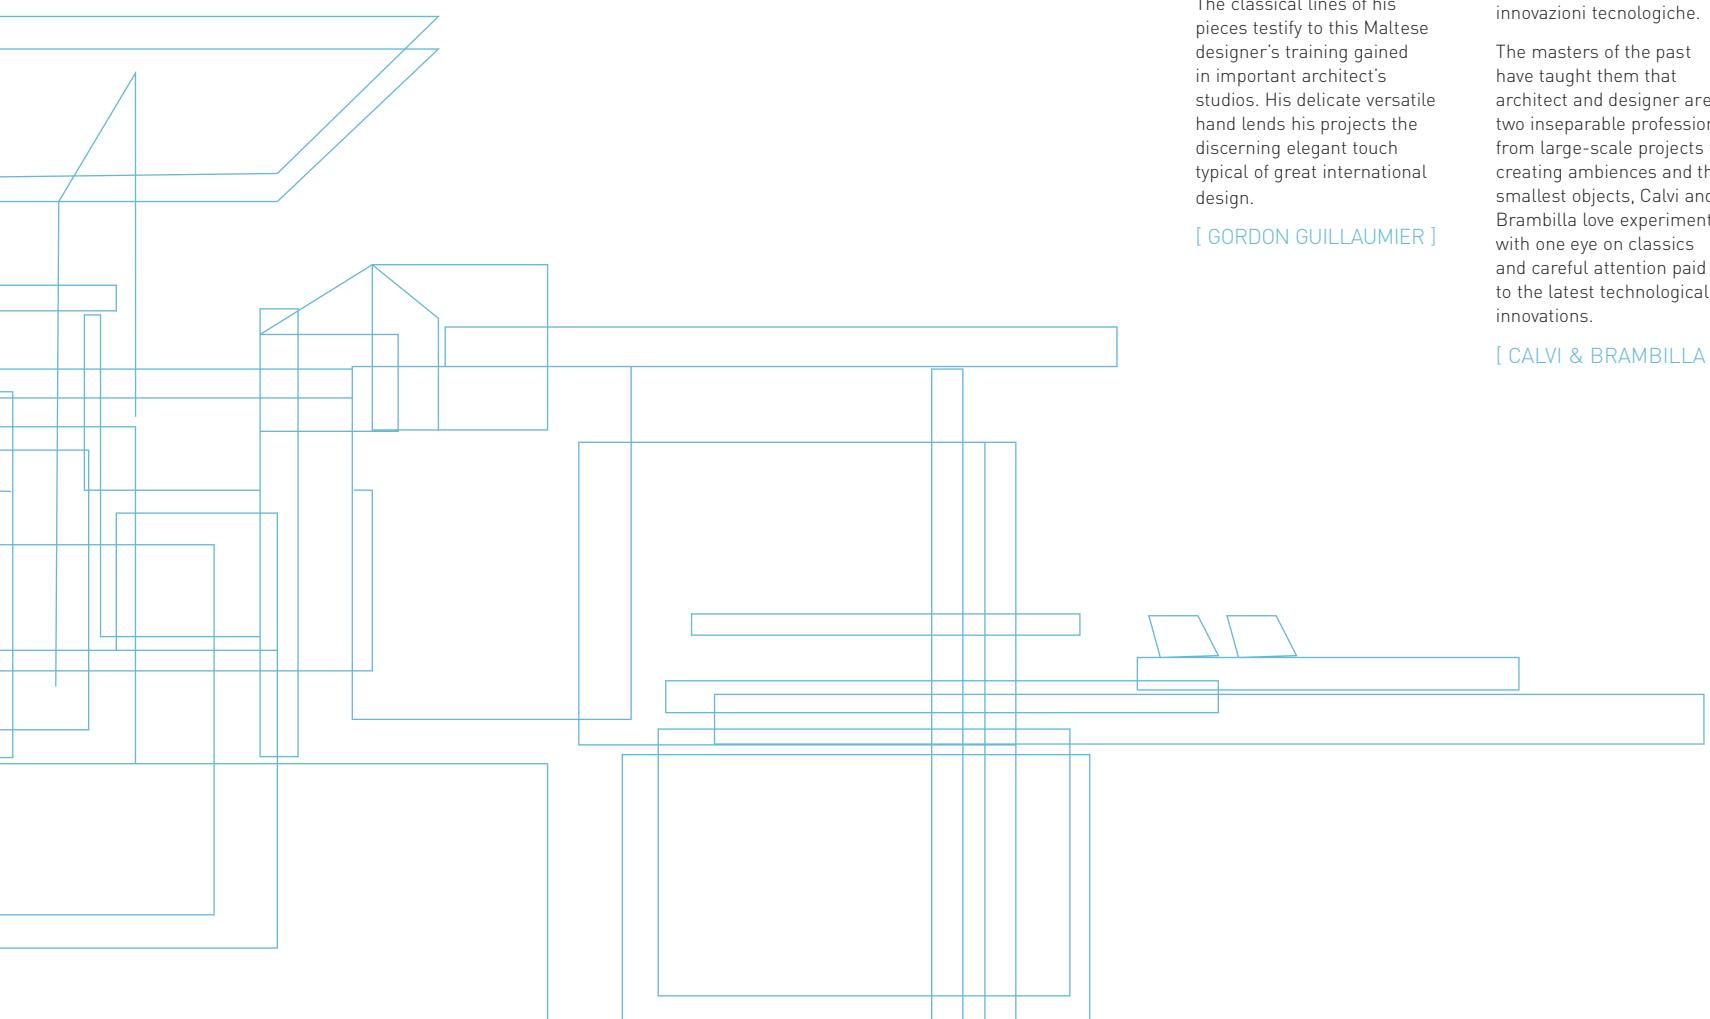

Per noi e per la nostra cultura. Una filosofia che ci tiene in contatto con il mondo. E che rende l'esterno più bello.

Outdoor furniture and nature: a kaleidoscope of colours that provoke a dialogue between design and personality. Hands want to touch and eyes want to see and capture the elements of the outdoor world we recognize. But not only.

Our outdoor collection seduces without intruding, in a continuous balancing act of creativity, colour and a search for rarity. The evocation of a weave, the texture of a fabric, the thickness of wood and an engraving on a stone come together in the dusk or the mid-day sea. Our wide range of products goes in a contemporary direction and is rich in discreet functionality, but at the same time pays attention to novelty and everything that can be defined as design and used as a creative workshop.

This is a philosophy that keeps us and our culture constantly in touch with the world. And enhances the attraction of the outdoors.

# designer

Le linee classiche dei suoi pezzi evidenziano la formazione del designer maltese, per anni collaboratore di importanti studi di architettura. La sua mano delicata e versatile porta nei diversi progetti un tocco discreto ed elegante tipico del grande design internazionale.

The classical lines of his pieces testify to this Maltese designer's training gained in important architect's studios. His delicate versatile hand lends his projects the discerning elegant touch typical of great international design.

[ GORDON GUILLAUMIER ]

Dai maestri del passato hanno imparato che architetto e designer sono due professioni indissolubili: dai progetti su larga scala, agli allestimenti e ai più piccoli oggetti, Calvi e Brambilla amano sperimentare con rimandi alla classicità e una grande attenzione verso le ultime innovazioni tecnologiche.

The masters of the past have taught them that architect and designer are two inseparable professions: from large-scale projects to creating ambiances and the smallest objects, Calvi and Brambilla love experimenting with one eye on classics and careful attention paid to the latest technological innovations.

[ CALVI & BRAMBILLA ]

I suoi prodotti si ispirano alle curve sensuali del corpo umano, fluide e ironiche. Coates è un artista a tutt'onda: architetto, designer, curatore e insegnante è uno di quelli, la cui visione si basa sullo spazio tra i vari campi visivi; un raro talento la cui visione artistica deriva dalla sovrapposizione di diversi ambiti professionali.

His products are inspired by the human body's sensual curves, fluid and ironic. Coates is an all-round artist: architect, designer, curator and teacher, his vision is based on the spaces between the different fields of view; a rare talent whose artistic perspective derives from superimposing the influence of several professions.

[ NIGEL COATES ]

Ha studiato Disegno Industriale presso l'Università di Wuppertal. Ha collaborato con alcuni stilisti come Babel Progettazione e Moll Design. In seguito ha lavorato in 10 anni come capo dello sviluppo e della progettazione per la fabbrica di mobili Reinhard AG Sachseln. Nel 2006 ha fondato rabadesign e il 2009 rabadesign GmbH Svizzera.

He studied Industrial Design at the University of Wuppertal. He collaborated with some designers like Babel Design and Moll Design. Following He worked within 10 years as the head of development and design for the furniture factory Reinhard AG Sachseln. In the year 2006 he founded rabadesign and 2009 rabadesign GmbH of Switzerland.

[ RAINER BACHSCHMID ]

Fa parte di quella generazione di architetti italiani caratterizzata da una formazione sia architettonica sia di design e maturata collaborando con i maestri del design italiano. I numerosi premi internazionali ricevuti per opere in queste discipline sono la conferma della qualità espressa. E' sempre stato un progettista curioso e questo lo ha portato ad aprire percorsi con nuove opportunità linguistiche.

He is part of that generation of Italian architects who have developed their expertise in the hands of the Masters of Italian design working both on structural architecture and contemporary design. The numerous International Awards he has received are proof of his innate architectural qualities. He has always been different from his colleagues and this has led him to follow different architectural expressions.

[ LORENZO BELLINI ]

Nato nel 1942 a Roma, si laurea in architettura nel 1968. Da diversi anni opera in Italia, con incarichi di progettazione architettonica e di Interior Design. In particolare si dedica a strutture alberghiere e ricettive che hanno riscosso e riscuotono tuttora grande successo e riconoscimento.

Born in Rome in 1942, he graduated in Architecture in 1968. He has been working in Italy for several years, dealing with architectural projects and interior design. In particular he dedicates his talents to hotels and hospitality structures, which have always achieved great success and acknowledgement.

[ MARIO MAZZER ]

Tra i più importanti designer francesi della sua generazione, fonde ispirazioni tratte da elementi naturali e quelle tratte dall'immaginario degli anni'60. E' un sostenitore del fatto che il design sia inevitabilmente destinato a un pubblico mainstream e che il designer non è uno specialista di oggetti quanto di una maniera di vita.

One of the most important French designers of his generation, he combines inspiration from natural elements with the icons of the 60s. He upholds that the inevitable destination of design is the mainstream public and that designers are not specialists in objects, but rather in a way of living.

[ CHRISTOPHE PILLET ]

## MANUTENZIONE / MAINTENANCE

## MANUTENZIONE / MAINTENANCE

**Golden Care®**  
CLEANS, RESTORES & PROTECTS

### TEAK CLEANER

Un unico prodotto per pulire e lucidare. Per pulire e ripristinare il teak scolorito, sporco, di colore grigio e/o verde.

Cleaner and brightener in one. To clean and restore discoloured, dirty, dark grey and/or green teak.

### TEAK PROTECTOR

Per mantenere il colore originale marrone dorato del teak per un lungo periodo:  
- fino a 4 volte più a lungo dell'olio per teak.  
- fino a 2 volte più a lungo del sigillante per teak.

To maintain the original, golden-brown colour of teak for a long time:  
- up to 4 times longer than teak-oil  
- up to twice as long as teak sealers.

### GLASS CLEANER

Toglie lo sporco, l'umidità e i piccoli graffi. Per dare al vetro un nuovo aspetto.

Removes dirt, moisture and small scratches. Restores the new look.

### GLASS PROTECTOR

Protegge e lo rende repellente allo sporco e all'acqua. Mantiene il vetro pulito e nuovo per un lungo periodo.

Protects and is dirt/water repellent. Maintains the new look for a long, long time.

### CLEANER

Pulisce e ristabilisce l'aspetto nuovo del metallo. Removes dirt and moisture and restores the new look.

Protects and is dirt/water repellent. Maintains the new look for a long, long time.

### WAXPOLISH

Protegge e lo rende repellente allo sporco e all'acqua. Mantiene l'aspetto originale del metallo per un lungo periodo.

Protects and is dirt/water repellent. Maintains the new look for a long, long time.

### CLEANER

Detergente non schiumoso per rivestimenti di sedute e schienali. Non foaming cleaner for seatings and back covers.

### CLEANER FOR WOVENS

Un detergente speciale non schiumoso per intrecci in fibra sintetica.

A special non-foaming cleaner for synthetic fibres wovens.
